University of Utah Health is the Mountain West's only academic health care system, combining excellence in patient care, the latest in medical research, and teaching to provide leading-edge medicine in a caring and personal setting. The system provides care for Utahns and residents of five surrounding states in a referral area encompassing more than 10 percent of the continental United States.

Whether it's for routine care or highly specialized treatment in orthopedics, stroke, ophthalmology, cancer, radiology, fertility, cardiology, genetic-related diseases, organ transplant, or more than 200 other medical specialties, University of Utah Health offers the latest technology and advancements, including some services available nowhere else in the region.

University of Utah Health Procedures

Solid Organ Transplants and Bone Marrow Transplant –

- U of U Health offers heart, kidney, liver, allogeneic and autologous transplant procedures

The Accarent Health Network provides access to a network of nationally recognized hospitals and highly rated academic medical centers. You will have the ability to compare Accarent Bundled Rates where each center participating in the network quotes the same plan parameters for each offered procedure ensuring you are truly comparing ‘apples to apples.’ You can then commit to a procedure with a clearer understanding of what you’ve signed up for.

Accarent offers case management, concierge services, and a travel benefit to ease your worries and ensure your experience goes as smoothly as possible. The result? Healthy patients who are happy with their care at reasonable prices.

Check with your plan administrator to see if you can save on patient deductibles and co-pays through the Accarent Network.
